Harry Sotomayor

Front-end Web Developer & UI/UX Designer

✉ hello@harryson.xyz   🌐 harryson.xyz   🗺 San Juan, Puerto Rico

Experience

Software engineer

VacoBuilt • Present

- The mobile app had a confusing user interface and low user engagement
- Redesigned the user interface, incorporating modern design principles and intuitive navigation
- The redesigned user interface lead to increased app usage

Web Developer

TechFirst • 2021

- A startup needed an engaging and informative website to establish its online presence
- Built a user-friendly website with a modern and responsive interface
- The website successfully conveyed the startup's brand identity, value proposition, and offerings

Front-end developer

Live Oak Bank • 2019

- The website's homepage was outdated and not responsive on mobile devices
- Redesign the homepage, ensuring it was responsive and visually appealing
- The redesigned homepage increased user engagement by 66%

Back-end developer

Kapok Digital • 2018

- The Diversity Movement wanted a tool to help users navigate sensitive topics
- Designed a chat bot to facilitate online discussions about diversity
- The chat bot helped structure discussions and guide participants towards understanding different perspectives

Education

Information Technology

University of Puerto Rico • 2017

- Earned a bachelor degree from the UPR School of Business

UI/UX Design

Coursera • 2021

- Received a certificate for completing the Google UX Design Course
